

## Requirements for Grant Applications

1. Applicant must be a resident of the state of Idaho for one year and not a transient
2. The Brave Heart Grant is to ease a situation that currently exists; not to keep the situation from coming to pass in the future.
3. In your statement, explain your employment status. If not employed, why not, and the means you are taking to look for work.
4. If you are given assistance at this time, what actions are being taken to ensure that you are not in a similar situation next month and/or the months thereafter? The Brave Heart Grant should relieve you of the current crisis today and prevent you from being concerned about it tomorrow (next month).
5. The required documents **must be provided**:
  - a. Separation papers (DD-214 or similar) showing character of discharge
  - b. Where assistance with rent is requested, an eviction or past due notice must be provided. If the amount of past due rent is greater than the maximum grant (\$500), there must be a statement from the landlord that he/she will work with the veteran meeting the balance without eviction.
  - c. Past due notices with all financial obligations such as for utilities must be provided, if that is where the assistance is requested.
6. Everyone has to make management decisions pertaining to financial obligations. If a veteran has made the decision to pay for his school, or to provide aid to someone outside the household, it is not the goal of the Brave Heart Grant program to make up the difference. Frequently, tough choices have to be made; extreme measures in extreme situations.

The Brave Heart Grant program is managed by volunteers. Funds for the program are a result of donations and fundraisers. The Board members take seriously their responsibilities in being good stewards of the funds entrusted by those supporting our veterans and their families in need.
